

```
#include<stdio.h>
#include<stdlib.h>
#include<string.h>

struct str{
    int id;
    char name[3];
    int age;

}

int main() {
    struct str ss;
    strcpy(ss.name, "玉兔");
    ss.age=12;
    ss.id=1002;
    printf("%d\n", ss.age);

    system("pause");
    return 0;

}
```
