

```
#include<stdio.h>
#include<stdlib.h>

//定义共用体
union test
{
    int a;
    short b;
    float c;
    double d; //8
    char e;

}

int main(void) {
    union test var;
    var.a=100;
    printf("%d\n", var.a);

    system("pause");
    return 0;
}
```
